Mrs Sykes is

A Teaching Assistant

I support learning in the  
Humanities Department

We are extremely proud of The Hive which is the heart of our SEND provision. Here our Learning Mentor and teaching assistants work with our students who need extra support to develop both academic and emotional skills.

In The Hive there is a large classroom where our intervention lessons for improving maths, literacy and reading skills take place, along with team building, crafting and computer based learning activities.

For some students The Hive is a quiet place for reflection, in particular at break and lunchtime when our students can enjoy a variety of activities in a peaceful environment.
